

# incuTrack™

a product of Cybergroup, Inc.

Organize your incubator...

...Find the golden eggs

- A comprehensive and feature-rich tracking and reporting system in use in dozens of business incubators and technology centers.
- Low cost, unified, centralized record keeping instead of a collection of disparate online and offline systems - this maximizes your management analysis and decision making.
- Facility management and program participants may be automatically notified and reminded about significant events such as lease extensions, insurance renewals, business reviews, milestones, and more.
